# Additional Chromebook Feedback

To ensure we are keeping the children safe when using their Chromebooks, we use **Senso**, a cloud-based online monitoring and safeguarding software.

Senso effectively detects harmful and inappropriate behaviour on the children's Chromebooks, both in school and at home. If the software detects inappropriate searches or the unacceptable use of language, an email is sent to the Designated Safeguarding Lead and the Senior Leadership Team. This will then be investigated and if appropriate, we will speak to the user involved and contact parents to inform them of the breach if required.

Chromebooks are for the children and should not be used by adults. The school also carries out regular internet browsing checks. 'Search history' cannot be deleted.

Chromebooks belong to the school and are loaned to the children. They must be treated with care – please refer to the signed agreement.

Do not eat or drink over the Chromebook.

It is important that the children's use of their Chromebook is monitored both at home and school. Please ensure you monitor this at home.
